GOLD MOVEMENT

GIVES WALL STREET A FRIGHT AND

TRADERS WEAKEN.

Bears Make a Rush and a Net Decline Is Scored-Local Markets Show More Activity.

At New York, yesterday, money on call was easy at 14614 per cent.; last loaned,

16: closed, 14614 per cent. Prime mercantile paper. 31/264 per cent. Sterling exchange was weak, with actual business in bankers bills at \$4.871/64.87% for demand and \$4.86@4.86% for sixty days; posted rates, \$4.87@4.871/2 and \$4.881/2@4.89; commercial bills, \$4.851/2.

Silver certificates, 61%/a624c; bar silver, 61%c. Mexican dollars, 48%c. At London bar silver closed at 2814d per ounce. Total sales of stocks were 130,915 shares, including: American Sugar, 30,100; Burling-

ton, 15,800; Chicago Gas, trust receipts, 14,360; Omaha, 4,200; Reading, 3,300; St. Paul, 10,300; Western Union, 14,700; New Jersey Central, 5,600.

The market for stocks was lacking in

animation yesterday and sank at times into a condition of unequalified dullness, although evidences of firmness and strength were not lacking and the small net decline was due rather to the sympathetic effect of the manipulation by the bears of special Perhaps the dullness was in gold export movement, first generally adpart, to those having to do with the market for exchange, as it is now generally understood that the gold movement has been held back for several days at least by tain after the engagement on Saturday of about \$1,000,000 for shipment to London on an order from that center. There was little apprehension aroused in Wall street, however, by the news that \$1,500,000 in gold coin had been withdrawn from the subtreasury for export to Europe. For one thing, it is felt that the present period of excessive imports of merchandise, which is now throwing the exchange situation against us, will necessarily be limited by the enactment into law of the new customs tariff. The return of the gold that may go out now is therefore confidently expected with the normal merchandise export movement later. Furthermore, it is believed that besides the large treasury gold reserve, a portion of the large reserve of New York banks would be forthcoming for export purposes rather than that they should have their stock of legal tenders depieted. The extent of the demand growing out of the demand of Japan and Austria on London is somewhat problematical, but no appre-hension is manifest in Wall street that the hension is manifest in Wall street that the gold exports will be sufficient to deplete the treasury reserve to a point that would give ground for apprehension regarding the currency. The market for Americans in London was weak this morning in face of an advancing tendency for consols, and the New York market took its opening tone from London. But after the opening loss the general market advanced to a point a fraction higher than Monday's close. The bears then sought successfully to stem the advance by attacks on individual stocks. hose selected for attack and the declines effected in them were: Chicago Gas, 11/2; Western Union, 1½; New Jersey Centrai. 2%; Delaware & Hudson, 1¼; Tennessee Coal & Iron, 1¾, closing at the lowest; Leather preferred, 1¾, and Omaha, 1½. The net declines in these were, however, only fractional except in New Jersey Central, 13, and Western Union 14. Sugar was a strong force in the market, leading the early advance and a general rally at the close and showing a net gain on the day of 1%. Standard Oil sold to-day at 2991/2, the nighest price on record. Trading in the bond market was marked

by a renewal of strength and activity in the Texas and Pacific issues, which rose 13014 per cent., respectively. The general market lacked feature, but ruled generally higher. The aggregate sales were \$766,000. Government bonds were neglected, but were steady at Monday's closing prices. The sales were \$1,000.

LOCAL GRAIN AND PRODUCE. Trade More Active and Prices Com-

paratively Steady. In nearly all departments there is more activity to trade. Provisions are moving better and prices firm at the late revision. There is a little more activity to the hide market with the prospective advance in the price of leather. Seed merchants are having quite a brisk trade, with prices on all descriptions unchanged and firm. Receipts of fruits and vegetables are larger this week, but with a good demand prices are well held. Green apples are about off the market. Poultry, eggs and butter are coming in more freely, but with a good request. Prices rule at the range of several days past.

The local grain market is fairly active and

receipts are larger than a few days ago, but all 11 and 13 West Pearl Street arrivals are readily taken at the following prices Wheat-No. 2 red, 88c; No. 3 red, 84@86c; No. red, 78@81c; wagon wheat, 80c. MAY WHEAT DOWN 11-4C

COLLAPSE SHORTLY BEFORE THE CLOSE WIPED OUT EARLY GAINS.

Other Grain Refused to Sympathize and Remained Strong-Provisions Are Lower.

CHICAGO, April 28 .- An active, irregular, feverish wheat market to-day came to a close after an early rise of 1c per bushel had been converted into a net decline of 14c. Corn and oats, on the contrary, were strongest at the close. Provisions were heavy at moderately lower prices.

The only apparent reason for the collapse in wheat was an attempt to realize on wheat bought on the advance. In wheat a firm opening was caused by the early Liverpool cables, which came much stronger than was anticipated in view of yesterday's decline here. July, which closed the day before at 71%@721/2c, opened at from 71%c to 72c, and after some scalpers had disposed of what long wheat they had and in the parting with it had depressed the price of July to 711/2c it began to rise again and had reached 7214@72%c before 10 o'clock. From the action of the market it was evident that speculators as a rule favored the buying side, influenced by the sharp break of the past two days. The tendency of the market during the morning was to advance on the slightest encouragement. Immediately after the noon hour the previous upward tendency of the market and confident buying by the bulls gave place to the exact opposite. So sudden was the change that July, which in the meantime had sold as high as 721/2c and worked back again to 72c and was worth the latter figure at 12:05, the market could not be sold at 71c at 12:10 p. m. In about fifteen minutes more it had tumbled to 693/4069%c, a drop of 2%c per busher in twenty-nve minutes. The reason for such a sudden collapse must be ascribed entirely to speculative conditions in the pit. An attempt to sell out 200,000 bushels of wheat bought during the forenoon was perhaps the direct starter of the collapse. That selling was regarded with all the more suspicion as it commenced as soon as the visible supply statement was given out placing the world's decrease at 2,569,000 bushels. A decrease of about half as much was all that had been expected. The closing cables were very disappointing. Liverpool showed a decline for the day from %d to 11/2d per cental. Some reaction took place before the close, but the market was nervous and weak to the end, 70% being the final quotation for July. Corn was steady and very duli, with lit tle changing from May to July going on. More rains West had a steadying influence, and the break in wheat had no effect. The visible supply decreased 3,904,000 bushels. July opened a shade higher at 25%c, sold a shade below that and advanced to 25%@

25%c, where it closed. Oats were firm, especially so in view of the break in wheat. The rains West caused the steady feeling early, and a good shipping demand helped later. The visible decreased 920,000 bushels. July opened 1/3c higher at 18c, sold at 177/3c and advanced to 184c, that being the closing price.

It was merely a day of changes in pro-visions, but prices held fairly steady notwithstanding the dullness. Toward the end the market was affected by wheat, and prices, which had recovered from a slight opening decline, sagged down again. At the close July pork was about 714c lower, at \$8.471/2; July lard 5c lower, at \$4.15; July ribs 5c lower, at \$4.621/6. Wool. BOSTON, April 28.-The American Wool and Cotton Reporter will say to-morrow of the wool trade. The business of the past week has been in spots, the market so far as the larger part of the trade is concerned, having been characterized by almost complete stagnation. The spot business in Boston since the last writing has amounted to 4,563,000 pounds, and of this about 65 per cent. was foreign wools. The duliness may be attributed to two facts, an indisposition on the part of manufacturers to pay the current rates and an indifference on the part of buyers as to whether they sell at these quotations or not. The movement of Territories has been small, domestic wools generally being very quiet. For-eign stock has attracted the greater part of the business, considerable Australian and South American cross-breds being moved. The chief topic of conversation to-day is the extraordinary prices being paid for wool in the West. Sales of the week in Boston were 5.113,000 pounds, 1,223,000 being domestic and 3,890,000 foreign.
